

Subject Index Vol. 31(6) 2024

- 16S rRNA gene 227
 α -Glucosidase 123
 α -glucosidase 199
 β -ketoacyl ACP synthase 305
Abelmoschus esculentus 192
Abiotic stress 321
Aerosol 431
Agroforestry 344
Airborne fungi 250
Alfalfa 456
Algae extract 417
Allele frequency 393
Alternative hosts 207
Alternative medicines 474
Amylose content (AC) 393
Antibacterial 263
Antibacterial properties 447
Antibody titers 45
Anticancer 367
Antidiabetes 199
Antifungal 285
Antifungal activity 250
Antifungal genes 116
Antimicrobial peptides 137
Antioxidant 199, 263
Apoptosis 174
Aquaculture 425
Arabica coffee 167
Arbuscular mycorrhizal fungi 57, 344
Arthroderma multifidum 285
Azospirillum thiophilum 01
Bacillus subtilis 116
Bacillus thuringiensis var. kurstaki HD-1 218
Bacillus velenzensis 331
Bacteriocin-nanoconjugates AgNPs 137
Bacteriocins 137
Bambara groundnut 207
Basidiomycetes 77
Benzene 227
Bermuda grass 456
Beta-lactam 17
Bioaccumulation 481
Bioactive content 367
Biochemical 45
Biodegradation 227
Biodiversity 243
Bio-fertilizer 89
Bio-fuel 355
Bio-herbicides 355
Bioinputs 410
Biological efficiency 77
Biological spectrum 235
Bionomics 28
Biopesticide 218
Bioslurry 65
Black francolin 129
Blattella germanica L. 431
Caldibacillus 227
Carotenoides 89
Cellulolytic fungi 51
Chemometrics analysis 192
Chlorophylls 89
Chloroplast count 101
Chromolaena odorata 37
Chromosome 393
Cleome viscosa 305
Cocoa tree 218
Color 425
Competitive enzyme-linked immunosorbent assay (c-ELISA) 111
Competitive ratio 344
Concentration 481
Contact-pesticide 147
Controlled release fertilizer 295
Correlations 255
Côte d'Ivoire 218
Cotton 486
Cowpea aphid borne mosaic virus 207
cpDNA 183
Crab 425
Crown and root rot 10
Cupping score 167
Cuticle thickness 431
DA activity 401
Demographic analysis 111
Dermatophytes 285
Detection 51
Dhamar 28
Dipterocarpaceae 183
Dopamine 401
Economic challenges 474
Efficacy test 218
Elaeis guineensis 437
Emergence rates 417
Enteromorpha ralfsii 417
Environment 155
Enzymatic activity 331
Enzyme extract 456
Essential oil 89
Evaluation 51
Evaporative air cooler 250
Fatty acid synthesis 305
Fermentability 17
Fertilizer 65
Fertilizer shape modification 295
Floristic structure 235
Flow cytometry 101
Foliar spray 255
Fucoxanthin 174
Functional microbes 01
Fusarium oxysporum 10
Game reserve 129
GC-Mass 417
Gender 425
Genetic diversity, 311
Genetic progress 155
Genetic type 465
Genetic variability 155
Genotype 192
Genotypic variation 269
Genus *Morbillivirus* 111
Gilgit 235
Grain yield 255
Green synthesis 137
Grey francolin 129
Growth-promoting bacteria 375
Guinea grass 410
H1299 cells 174
H9N2 84
Habitat 129
Haplotype 243
Heavy metals 321
Hematology 45
Heritability 269
Housefly 417
Hunting 129
IBV 465
Identification 51
Immunological 45
In vitro culture 101
Incidence 207
Indigenous 481
Indigenous mycorrhizal fungi 486
Infestation density 383
Inhibitory activity 123
Inoculation 344
Insecticide resistance 431
International standards 481

Inter-simple sequence repeat markers 269
 Inulin 339
 Irrigation 155
 Lactic acid bacteria 137
Lactobacillus bulgaricus 339
 Landraces 269
Lasiodiplodia theobromae 10
 L-DOPA 401
 Leaf surface traits 383
Lentinula edodes 401
 Lepit 23
 Ligninolytic fungi 456
 Lung cancer 174
Lysinibacillus 227
 Macrotrients 192
 Malathion 23
 Mancozeb 147
 Mangrove apple 339
 Marketing 65
 Mathematical model 295
 MCF-7 367
 Medium-grain rice 393
 Mg export 437
 Mg immobilization 437
 Mg recycling 437
 Mg use efficiency 437
 Microbial inoculation 410
 Micronutrients 77
 Minerals 192
 Minimum inhibitory concentration 263
 Mitigation 321
 Molecular characterization 285
 Moluccas 183
 Morocco 311
 Morphological and phylogenetic analysis 10
 Morphological structure 147
 Morphometric 425
 Mortality 417
 Mountain savannah 01
 mt-COX1 243
 Mulberry 213
 Mushrooms 401
 Mutations 277
 Myricetin 3-*O*- α -rhamnoside 123
 Nano-fertilizer 89
 NDV 84
 Newcastle disease 474
 Niacin 213
 Nitrogen 375
 NPK compound fertilizer 37
 Nuclear genes 183
 Nutrient solubilization 375
 Nutrient uptake pattern 295
 Nutrients 213
 Nutrition analysis 263
Oreochromis 243
 Organic weed control 355
 Ornamental plants 10
 Oryza 155
 Oxytetracycline 17
 Pakcoy 37
 Pasture 410
 Path coefficient 155
 PCR 311
 Pearson's correlation 192
Pelargonium graveolens 89
 Permissible limits 481
 Peroxidase 213
 Pesticide-degrading enzyme 147
 PGPR 57
 Phenolic content 263
 Phenotypic diversity 277
 Phenotypic variation 269
 Phlebotomine sandflies 28
 Phosphorus content 57
 Phyllosphere bacteria 116
 Phylogenetic analysis 465
 Physicochemical analysis 77
 Phytochemical constituents 383
 Phytochemical content 199
 Phytosociology 235
 Pioneer plant 01
 Plant defense 383
 Plant hormone 375
 Plants 321
 PLGA 174
 Pliek U 51
 Polluted soil 227
 Polymorphism 311
 Polyphenol oxidase 213
 Population 129
Portunus pelagicus 425
 Potato 65
 Potential bacteria 331
 Poultry growth 474
 PPR 111
 Prebiotic 339
 Productivity 486
 Proximate analysis 263
 Pyrethroid 431
Pyricularia oryzae 116
 Quince 263
 Rahim abad 235
Rattus norvegicus 23
 Residues 17
 Rhizome yield 101
 Riboflavin 213
 Rice fish farming 331
 Rice 311
 Roasting degree 167
 Root growth 255
Rubroshorea selanica 183
 S1 gene 465
Sahlbergella singularis 218
 Secondary metabolites 447
 Seed development 305
 Selection 277
 Sensory quality 167
 Seroprevalence 111
 Seroprevalence 84
 Shading effects 447
 Silage quality 456
 Silver nanoparticles 321
 Single nucleotide polymorphism 393
 Smadan root 367
 Solid-state fermentation 77
 South Asia 465
 South Punjab 84
 Soybean leaf compounds 447
 Spread 207
 SSR markers 311
 Starch content 57
 Stress tolerance 255
 Sucking pests 383
 Susceptibility 285
 Sustainability 410
 Sustainable agriculture 355
 Talc 23
 Tetra pack milk 17
 Thymoquinone 285
 Tilapia 243
Tithonia diversifolia 37
 Treatment 456
 Tree growth 344
 Trichoderma 57
Tristaniopsis obovate 123
 Tuber quality 57
 Tyrosinase 401
 Ultisols 37
Uncaria sclerophylla 199
 Vaccine limitations 474
 Vaccine matching 465
 Vapor phase 250
 Volcanic soil 01
 Weed compost 355
 Weed hay and silage 355
 Weed mulch 355
 Wheat 255
 White-rot fungi 147
 Yemen 28
 Yield 486
 Yield 65
ytpA gene 116
Z. officinale 101
 Zinc phosphide 23
